Not sure what goes in your recycling bin? Use this poster to help!

## ACCEPTED

\*Exceptions for plastic packaging: No black plastic, Styrofoam, plastic film

## UNACCEPTED

## RECYCLING TIPS

Here are some tips to help you recycle the right way.

- Don't stuff recyclables inside one another. This makes it hard for the machinery to sort the materials at the recycling facility.
- Make sure your containers are empty before recycling. A quick rinse is always appreciated.
- Break down boxes to save space in your blue bin.
- Don't put anything in your blue bin that your community doesn't accept. Check with your community or visit the Recyclepedia at [SimplyRecycle.ca](http://SimplyRecycle.ca).
- Many communities have recycling depots where you can recycle items that don't go in your blue bin. Check with your community to see what materials they accept.
